

AMC Happenings

Spring 2018

AMC WILL BE AT THE 2018 IPI

CONTACT BERNIE AT (406) 431-9514 OR BERNIE@AMC-HLN.COM TO SCHEDULE A MEETING

Successful Integrations

We are proud to announce that we have completed several successful integrations this past year.

[Hospital Parking Interfaces](#)

AMC has completed parking interfaces for many hospitals. These systems interface their hospital parking to the manufacturer's software. The eNet Validation System has been installed at Erie County Medical Center, Oklahoma Health Science Center, University of Arkansas Medical Sciences, Children's Hospital Dallas, University Hospital Center in San Antonio, St. Joseph's Hospital, and many others.

[Data Import and Export](#)

Extract data in any format to import into your new parking system. We have developed import / export programs for several manufacturers.

[University Systems](#)

Completed AMC interfaces include Emory University, New Jersey City University, Georgia State University, Indiana State University and Rush University.

[Parking Management Companies](#)

AMC has worked with Citizens Lanier, LAZ, Nexus, SPPlus, Hospitality Parking, Parkway, ABM, ACE, and others.

Hotel Interface System

The solution for integrating your parking system to your front desk software and key encoding system is the AMC Hotel Interface System. This system allows the guest to use the same key for room & parking access throughout their duration of stay.

[Current Options](#)

Fully integrated system, stand-alone system, and event keycard system.

[Certified Interfaces](#)

We have certified interfaces with , ,  and . In addition we support , ,  and , as well as,  key card systems, Magstripe and MIFARE contactless keycard systems.

[Integrations](#)

Compatible with multiple manufacturer's software.

Technical Notes

[ScanNet for Windows 10](#)

AMC has successfully installed ScanNet on Windows 10 computers. We can replace your outdated servers, workstations and consoles with new Windows 10 machines.
