

The Answer to the Missing Feature of Nesting For ScanNet Software

Allows Tracking, Automatic Turn-Off, & Billing of Violations to the Nesting Rules within a Garage

Specify which readers participate in nesting

Ideal for Monthly Parkers

Assigned package codes are monitored to ensure that parkers proceed from the entrance of a facility to the nesting area or exit the nesting area & proceed to an exit within a predetermined amount of time.

If the parkers don't meet the grace period, the credential instantly becomes invalid.

AMC Nesting Interface Program 02:44:48 PM

Check For Credential Nesting Violations

When The Red Light Is Visible the Process is Waiting. The Green Light Indicates that it is processing the data.

Waiting

Timer Interval (seconds)

Monitor Only
